SUBJECT INDEX TO VOLUME 63, 1984

Explanation of symbols:

The page number on which the article appears is listed immediately after the author's name.

Numbers followed by (#) indicate the proceedings of the Ninth International Conference on Oral Biology.

Numbers followed by (!) indicate the proceedings of the ADA Conference on Clinical Caries Trials.

Numbers followed by (%) indicate the symposium on "Newer Aspects of the Pharmacology and Physiology of Intravenous Sedation".

Numbers followed by (') indicate a winner in the Edward H. Hatton Awards Competition.

ABSTRACTS

Abstracts of papers, 62nd General Session IADR, Annual Session AADR. 163
Divisional abstracts. 486 25
Ninth international conference on oral biology. Various authors. 478#

ACID-ETCHING, DENTAL

Comparison of the tensile bond strengths of composite resins to longitudinal and transverse sections of enamel prisms in human teeth, A. Munechika, T., *et al.* 1079
Cusp reinforcement by the acid-etch technique. Morin, D., *et al.* 1075
In vivo remineralization of human enamel and dental calculus formation. Hoyer, I., *et al.* 1136

ACTINOBACILLUS

Black-pigmented *bacteroides* species, *capnocytophaga* species, and *actinobacillus actinomycetemcomitans* in human periodontal disease: virulence factors in colonization, survival, and tissue destruction. Slots, J.,*et al.* 412#
Host response in experimental periodontal disease. Taubman, M. A., *et al.* 455#

ACTINOMYCES

Automated immunofluorescent speciation of oral bacteria using flow cytometry. Barnett, J. M., *et al.* 1040
Colonization of the subgingival area by *bacteroides gingivalis*. Takazoe, I., *et al.* 422#
Conceptual model for the co-existence of *streptococcus* spp. and *actinomyces* spp. in dental plaque, A. van der Hoeven, J.S., *et al.* 389#
Effects of fluoride, lithium, and strontium on intracellular polysaccharide accumulation in *s. mutans* and *a. viscosus*. Wegman, M.R., *et al.* 1126
Function and distribution of different fimbriae on strains of *actinomyces viscosus* and *actinomyces naeslundii*, The. Cisar, J.O., *et al.* 393#
Relationship of bioenergetic processes to the pathogenic properties of oral bacteria. Marsh, P.D., *et al.* 401#
Ureolytic microflora of immature dental plaque before and after rinsing with a urea-based mineralizing solution, The. Gallagher, I. H. C., *et al.* 1037

ADENOVIRUSES

Humoral immune responses to adenoviruses, herpes virus type 1, and *candida albicans* in sera of dental patients with oral neoplastic and periodontal diseases. Winters, W.D., *et al.* 1306

AIDS

Microbial pathogenicity in oral soft tissue diseases. Greenspan, J.S., *et al.* 431#

ALKALINE PHOSPHATASE

Similarity between alkaline phosphatases from bovine dental pulp and liver. Harada, K., *et al.* 28

ALVEOLAR RIDGE AUGMENTATION

Augmentation of rat mandibular ridge with demineralized bone implants. Kaban, L.B., *et al.* 998

AMELOGENESIS

Inhibition of seeded growth of enamel apatite crystals by amelogenin and enamelin proteins *in vitro*. Doi, Y., *et al.* 98
Rat intestinal vitamin D-dependent calcium-binding protein: immunocytochemical localization in incisor ameloblasts. Taylor, A.N., *et al.* 94

AMINO ACIDS

Chemical analyses of membranes isolated from *streptococcus mutans* BHT. Crowley, P.J., *et al.* 1343

ANALGESICS

Clinical effectiveness and untoward effects of new agents and techniques. Korttila, K. 848%
Development of new agents and techniques for intravenous analgesia. Thut, P.D. 834%

ANALYSIS OF VARIANCE

Analysis of covariance in dental caries clinical trials: discussion of Dr. Grainger's presentation. Slakter, M.J. 772!
Analysis of covariance in dental caries clinical trials. Grainger, R.M., *et al.* 766!
Assessing treatment effects in caries trials using ordered categorical data. Fleiss, J.L. 778!
Categorical methods for assessing treatment effects in caries clinical trials: discussion of Dr. Fleiss' presentation. D'Agostino, R.B. 783!
Hypothesis testing *vs.* statistical estimation procedures in caries clinical trials: discussion of Dr. Fertig's presentation. O'Neill, R.T. 812!
Hypothesis testing *vs.* statistical estimation procedures in caries clinical trials. Fertig, J.W. 808!
Sexual dimorphism in the emergence of the deciduous teeth. Tanguay, R., *et al.* 65
Stratification methods in caries clinical trials: discussion of Dr. Kingman's presentation. Smith, H., Jr. 777!
Stratification methods in caries clinical trials. Kingman, A. 773!

ANESTHESIA

Conscious sedation: an alternative to general anesthesia. Bennett, C.R. 832%
Dental fear and avoidance: a comparison of two modes of treatment. Berggren, U., *et al.* 1223

ANESTHETICS

Clinical effectiveness and untoward effects of new agents and techniques. Korttila, K. 848%
Development of new agents and techniques for intravenous analgesia. Thut, P.D. 834%

ANXIETY

Clinical assessment of new I.V. sedation agents and techniques. Peterson, L.J. 838%
Clinical effectiveness and untoward effects of new agents and techniques. Korttila, K. 848%
Conscious sedation: an alternative to general anesthesia. Bennett, C.R. 832%
Differential pharmacology of drugs used for intravenous pre-medication. Dionne, R.A. 842%
Panel discussion on critical issues for future research on intravenous sedation—a consensus. Bennett, C.R. 853%

BACTERIAL ADHERENCE

Adherent interactions which may affect microbial ecology in the mouth. Gibbons, R.J. 378#
Function and distribution of different fimbriae on strains of *actinomyces viscosus* and *actinomyces naeslundii*, The. Cisar, J.O., *et al.* 393#
Glycoconjugate receptors involved in the adhesion of *escherichia coli* and *streptococcus pneumoniae* to epithelial cells. Svanborg-Edén, C., *et al.* 386#

BACTERIAL INFECTIONS

Contribution of molecular biology to the understanding and control of microbial infections. Pittard, A.J. 374#

BACTEROIDES

Black-pigmented *bacteroides* species, *capnocytophaga* species, and *actinobacillus actinomycetemcomitans* in human periodontal disease: virulence factors in colonization, survival, and tissue destruction. Slots, J., *et al.* 412#
Colonization of the subgingival area by *bacteroides gingivalis*. Takazoe, I., *et al.* 422#
Effect of splint placement on the black-pigmented *bacteroides* and spirochetes in the dental plaque of beagle dogs. Mikx, F. H. M., *et al.* 1284

BASOPHILS

Host responses in periodontal diseases. Genco, R.J., *et al.* 441#

BEHAVIOR THERAPY

Dental fear and avoidance: a comparison of two modes of treatment. Berggren, U., *et al.* 1223

BENZOYL PEROXIDE

Lipid peroxidation as a possible cause of benzoyl peroxide toxicity in rabbit dental pulp—a microsomal lipid peroxidation *in vitro*. Terakado, M., *et al.* 901

BIFIDOBACTERIUM

Ureolytic microflora of immature dental plaque before and after rinsing with a urea-based mineralizing solution, The. Gallagher, I. H. C., *et al.* 1037

BLOOD

Effect of dental amalgam restorations on blood

Colonization of the subgingival area by *bacteroides gingivalis*. Takazoe, I., *et al.* 422#
Effect of splint placement on the black-pigmented *bacteroides* and spirochetes in the dental plaque of beagle dogs. Mikx, F. H. M., *et al.* 1284

BASOPHILS

Host responses in periodontal diseases. Genco, R.J., *et al.* 441#

BEHAVIOR THERAPY

Dental fear and avoidance: a comparison of two modes of treatment. Berggren, U., *et al.* 1223

BENZOYL PEROXIDE

Lipid peroxidation as a possible cause of benzoyl peroxide toxicity in rabbit dental pulp—a microsomal lipid peroxidation *in vitro*. Terakado, M., *et al.* 901

BIFIDOBACTERIUM

Ureolytic microflora of immature dental plaque before and after rinsing with a urea-based mineralizing solution, The. Gallagher, I. H. C., *et al.* 1037

BLOOD

Effect of dental amalgam restorations on blood

mercury levels, The. Abraham, J.E., *et al.* 71

BONDING, DENTAL

Bond strength between dentin and restorative resins mediated by mixtures of HEMA and glutaraldehyde. Munksgaard, E.C., *et al.* 1087
Build-up and repair of light-cured composites: bond strength. Boyer, D.B., *et al.* 1241
Cement distribution and bond strength in cemented posts. Goldman, M., *et al.* 1392
Cements containing syringic acid esters o-ethoxybenzoic acid and zinc oxide. Brauer, G.M., *et al.* 137
Comparison of the tensile bond strengths of composite resins to longitudinal and transverse sections of enamel prisms in human teeth, A. Munechika, T., *et al.* 1079
Competition between the composite-dentin bond strength and the polymerization contraction stress, The. Davidson, C.L., *et al.* 1396
Cusp reinforcement by the acid-etch technique. Morin, D., *et al.* 1075
Hydrolytic degradation of dental composites. Söderholm, K. -J., *et al.* 1248
Influence of silane treatment and filler fraction on thermal expansion of composite resins. Söderholm, K. -J. M. 1321
Inhibition of marginal leakage with a dentin bonding agent. Dumsha, T., *et al.* 1255
Intermediate restoratives from *n*-hexyl vanillate-EBA-Zn0-glass composites. Brauer, G. M., *et al.* 1315
Oxide compounds on Ni-Cr alloys. Baran, G. R. 1332
Relaxation of polymerization contraction stresses by flow in dental composites. Davidson, C.L., *et al.* 146
Shear testing of the porcelain-metal bond. Drummond, J. L., *et al.* 1400

BONE AND BONES

Experimental osteo-fluorosis in the domestic pig: a histomorphometric study of vertebral trabecular bone. Kragstrup, J., *et al.* 885

BONE RESORPTION

Inhibitory effect of inositol phosphates on parathyroid hormone-induced bone resorption in organ cultures. Gomes, B. C., *et al.* 890

CALCIUM PHOSPHATES

Effects of sequential calcium phosphate-fluoride rinses on dental plaque, staining, fluoride uptake, and caries in rats. Shern, R. J., *et al.* 1355
Formation and remineralization of artificial white spot lesions: a constant composition approach, The. de Rooij, J. F., *et al.* 864
Physicochemical bench-scale caries model, A. Chow, L. C., *et al.* 868
Relationship between concentration of human salivary statherin and inhibition of calcium phosphate precipitation in stimulated human parotid saliva. Hay, D. I., *et al.* 857

CANDIDA ALBICANS

Control of morphogenesis in *candida albicans*, The. Shepherd, M. G., *et al.* 435*
Humoral immune responses to adenoviruses, herpes virus type 1, and *candida albicans* in sera of dental patients with oral neoplastic and periodontal diseases. Winters, W. D., *et al.* 1306

CAPNOCYTOPHAGA

Black-pigmented *bacteroides* species, *capnocytophaga* species, and *actinobacillus actinomycetemcomitans* in human periodontal disease: virulence factors in colonization, survival, and tissue destruction. Slots, J., *et al.* 412*

CARBACHOL

Effects of epinephrine, norepinephrine, and carbachol on oxygen consumption in rat sublingual gland slices, The. Terzić, M., *et al.* 1360

CARCINOMA

Incisional biopsy and seeding in hamster cheek pouch carcinoma. Safour, I. M., *et al.* 1116

CARIOGENIC AGENTS

Effect of cheese, with and without sucrose, on dental caries and recovery of *streptococcus mutans* in rats. Rosen, S., *et al.* 894
Enamel fluoride uptake and acid resistance in subjects with high and low experimental cariogenicity. Ostrom, C.A., *et al.* 133

CARIOSTATIC AGENTS

Anti-bacterial determinants of stannous fluoride. Camosci, D. A., *et al.* 1121
Caries prevention in rats by fluoride varnish treatment combined with addition of fluoride to dietary sugar. Seppä, L., *et al.* 1190
Effect of daily rinsing with stannous fluoride on plaque and gingivitis: final report. Leverett, D. H., *et al.* 1083

CARTILAGE

Studies on chondrocytes from mandibular condylar cartilage, nasal septal cartilage, and spheno-occipital synchondrosis in culture. I. morphology, growth, glycosaminoglycan synthesis, and responsiveness to bovine parathyroid hormone (1-34). Takigawa, M., *et al.* 19

CATS

Effect of some metal ions on the intradental sensory nerves of the cat, The. Panopoulos, P., *et al.* 37

CATTLE

Similarity between alkaline phosphatases from bovine dental pulp and liver. Harada, K., *et al.* 28

CELL DIVISION

Effect of eugenol on respiration and division in human pulp, mouse fibroblasts, and liver cells *in vitro*. Hume, W. R. 1262

CELL MEMBRANE

Chemical analyses of membranes isolated from *streptococcus mutans* BHT. Crowley, P. J., *et al.* 1343
Effect of chronic isoproterenol administration on the plasma membrane of acinar cells in rat submandibular gland, The. Sahara, N., *et al.* 1028
Relationship of bioenergetic processes to the pathogenic properties of oral bacteria. Marsh, P.D., *et al.* 401*

CELL WALL

Interaction of bacterial peptidoglycan with macrophages in chronic inflammation, The. Hunter, N. 427*
Relatedness and classification of *streptococcus mutans* and "mutans-like" streptococci. Schleifer, K. H., *et al.* 1047

CHEEK

Extensibility characteristics of human cheek—visco-elastic properties. Ho, T. P., *et al.* 1258

CHEESE

Effect of cheese, with and without sucrose, on dental caries and recovery of *streptococcus mutans* in rats. Rosen, S., *et al.* 894

CHIMPANZEE

Hominoid dental microwear: complication in the use of microwear analysis to detect diet. Gordon, K.D. 1043

CHLORHEXIDINE

Effect of chlorhexidine-fluoride applications without and with Sr and Zn on caries, plaque, and gingiva in rats. Luoma, H., *et al.* 1193

CHLORIDES

Effect of polyvalent metal ion mordanting on caries-like lesion progression in enamel, The. Clarkson, B.H., *et al.* 13
Microprobe and SEM analysis of surface coatings on caries-like lesions in enamel after metal ion mordanting and APF application. Clarkson, B.H., *et al.* 106

CHROMIUM

Induction of immunological tolerance by oral administration of nickel and chromium. Vreeburg, K.J.J., *et al.* 124

CLINICAL TRIALS

Alpha level distortions with repeated testing of follow-up dental data. Cohen, M.E. 1214
Analysis of covariance in dental caries clinical trials: discussion of Dr. Grainger's presentation. Slakter, M. J. 772†
Analysis of covariance in dental caries clinical trials. Grainger, R.M., *et al.* 766†
Assessing treatment effects in caries trials using ordered categorical data. Fleiss, J.L. 778†
Categorical methods for assessing treatment effects in caries clinical trials: discussion of Dr. Fleiss' presentation. D'Agostino, R.B. 783†
Clinical evaluation methods for posterior composite restorations. Goldberg, A.J., *et al.* 1387
Critical evaluation of some problems associated with clinical caries trials by computer simulation, A. Lu, K.H., *et al.* 796†
Critical evaluation of some problems associated with clinical caries trials by computer simulation: discussion of Dr. Lu's presentation, A. Zimmerman, S.O. 805†
Development of an index for the prevalence of root caries: discussion of Dr. Katz' presentation. Mumma, R.D., Jr. 818†
Development of an index for the prevalence of

root caries. Katz, R.V. 814[1]
Ethical considerations and study design: discussion of Dr. Heifetz' presentation. Alman, J.E. 723[1]
Ethical considerations and study design. Heifetz, S.B. 719[1]
Fluoride in deciduous teeth from an anti-caries clinical study. Sakkab, N.Y., *et al.* 1201
How is it decided when to conduct a large-scale caries clinical trial?: discussion of Dr. Briner's presentation. Carlos, J.P. 717[1]
How is it decided when to conduct a large-scale caries clinical trial? Briner, W.W. 715[1]
Hypothesis testing *vs.* statistical estimation procedures in caries clinical trials: discussion of Dr. Fertig's presentation. O'Neill, R.T. 812[1]
Hypothesis testing *vs.* statistical estimation procedures in caries clinical trials. Fertig, J.W. 808[1]
Improvement in selection of study participants: discussion of Dr. Downer's presentation. Mainwaring, P.J. 755[1]
Improvement in selection of study participants. Downer, M.C., *et al.* 752[1]
Improvement of diagnostic methods in clinical caries trials: discussion of Dr. Marthaler's presentation. Fischman, S.L. 750[1]
Improvement of diagnostic methods in clinical caries trials. Marthaler, T.M. 746[1]
Interim clinical evaluations in caries clinical trials: discussion of Dr. Poulsen's presentation. Greenberg, B.G. 739[1]
Interim clinical evaluations in caries clinical trials. Poulsen, S., *et al.* 736[1]
Management and evaluation of the effects of misclassification in a controlled clinical trial. Bell, R.M., *et al.* 731[1]
Management and evaluation of the effects of misclassification in a controlled clinical trial: discussion of Dr. Bell's presentation. Smith, M.R. 735[1]
Measurement and expression of treatment effects in caries clinical trials: discussion of Dr. Horowitz' presentation. Holloway, P.J. 713[1]
Measurement and expression of treatment effects in caries clinical trials. Horowitz, H.S. 709[1]
Specific non-parametric approaches to analyzing caries clinical trials: discussion of Dr. Varma's presentation. Imrey, P.B. 788[1]
Specific non-parametric approaches to analyzing caries clinical trials. Varma, A.O. 784[1]
Stratification methods in caries clinical trials: discussion of Dr. Kingman's presentation. Smith, H., Jr. 777[1]
Stratification methods in caries clinical trials. Kingman, A. 773[1]
Types of clinical caries studies: discussion of Dr. Stamm's presentation. Bagramian, R.A. 708[1]
Types of clinical caries studies: epidemiological surveys, randomized clinical trials, and demonstration programs. Stamm, J.W. 701[1]
Use and misuse of computers in the design and analysis of dental clinical trials. Brunelle, J.A. 820[1]
Use and misuse of computers in the design and analysis of dental clinical trials: discussion of Ms. Brunelle's presentation. Bollmer, B.W. 823[1]
Use of misclassification models in the evaluation of caries clinical trials: discussion of Dr. Reed's presentation, The. Goldberg, J.D. 730[1]
Use of misclassification models in the evaluation of caries clinical trials, The. Reed, G.F. 727[1]
Use of supporting laboratory or clinical data in caries clinical trials. Bowen, W.H. 757[1]
Use of supporting laboratory or clinical data in caries clinical trials: discussion of Dr. Bowen's presentation. Mandel, I.D. 760[1]

COLLAGEN

Extensive degradation of recently synthesized collagen in gingiva of normal and streptozotocin-induced diabetic rats. Schneir, M.L., *et al.* 23
Nerve regeneration through collagen tubes. Colin, W., *et al.* 987[2]

COMPOSITE RESINS

Bond strength between dentin and restorative resins mediated by mixtures of HEMA and glutaraldehyde. Munksgaard, E.C., *et al.* 1087
Build-up and repair of light-cured composites: bond strength. Boyer, D.B., *et al.* 1241
Class 2 composite restorations: prevention *in vitro* of contraction gaps. Jørgensen, K.D., *et al.* 141
Clinical evaluation methods for posterior composite restorations. Goldberg, A.J., *et al.* 1387
Comparison of the tensile bond strengths of composite resins to longitudinal and transverse sections of enamel prisms in human teeth, A. Munechika,T., *et al.* 1079
Comparative *in vitro* sliding-wear study of conventional, microfilled, and light-cured composite restoratives. Rice, S.L., *et al.* 1173
Competition between the composite-dentin bond strength and the polymerization contraction stress, The. Davidson, C.L., *et al.* 1396
Effects of backing reflectance and mold size on polymerization of photo-activated composite resin. Fan, P.L., *et al.* 1245
Fourier transform infrared analysis of degree of polymerization in unfilled resins—methods comparison. Ferracane, J.L., *et al.* 1093
Hydrolytic degradation of dental composites. Söderholm, K.-J., *et al.* 1248
In vivo and *in vitro* wear of potential posterior composites. Lutz, F., *et al.* 914
Influence of silane treatment and filler fraction on thermal expansion of composite resins. Söderholm, K.-J.M. 1321
Lipid peroxidation as a possible cause of benzoyl peroxide toxicity in rabbit dental pulp—a microsomal lipid peroxidation *in vitro*. Terakado, M., *et al.* 901
Oscillatory wear tests of dental composites. Pilliar, R.M., *et al.* 1166
Relaxation of polymerization contraction stresses by flow in dental composites. Davidson, C.L., *et al.* 146
Wear behavior of a composite restorative and various styli in sliding contact. Rice, S.L., *et al.* 932

CORROSION

Acceleration of corrosion of dental amalgam by abrasion. Marek, M. 1010
Tarnish and corrosion of a commercial dental Ag-Pd-Cu-Au casting alloy. Niemi, L. 1014

COST BENEFIT ANALYSIS

How is it decided when to conduct a large-scale caries clinical trial?: discussion of Dr. Briner's presentation. Carlos, J.P. 717[1]
How is it decided when to conduct a large-scale caries clinical trial? Briner, W.W. 715[1]
Measurement and expression of treatment effects in caries clinical trials: discussion of Dr. Horowitz' presentation. Holloway, P.J. 713[1]
Measurement and expression of treatment effects in caries clinical trials. Horowitz, H.S. 709[1]

CROSS–SECTIONAL STUDIES

Types of clinical caries studies: discussion of Dr. Stamm's presentation. Bagramian, R.A. 708[1]
Types of clinical caries studies: epidemiological surveys, randomized clinical trials, and demonstration programs. Stamm, J.W. 701[1]

CYPRINIDAE

Larval *vs.* adult pharyngeal dentition in some Japanese cyprinid fishes. Nakajima, T. 1140

CYSTIC FIBROSIS

Reserpinization: effects on parotid gland function. Watson, E., *et al.* 82

DDE INDEX

Distribution of enamel defects and the association with respiratory distress in very low birthweight infants. Johnsen, D., *et al.* 59

DELAYED-ACTION PREPARATIONS

Sustained release device containing metronidazole for periodontal use. Golomb, G., *et al.* 1149

DENTAL ALLOYS

Auger chemical analysis of oxides on Ni-Cr alloys. Baran, G. 76
Effect of metal design on marginal distortion of metal-ceramic crowns. DeHoff, P.H., *et al.* 1327
Elastic modulus of a triple-stranded stainless steel arch wire *via* three- and four-point bending. Kusy, R.P., *et al.* 1232
Induction of immunological tolerance by oral administration of nickel and chromium. Vreeburg, K.J.J., *et al.* 124
Measurement of oxide adherence to PFM alloys. Mackert, J.R., *et al.* 1335
Microprobe analysis of three high-copper amalgams. Mahler, D.B., *et al.* 921
Oxide compounds on Ni-Cr alloys. Baran, G.R. 1332
Shear testing of the porcelain-metal bond. Drummond, J.L., *et al.* 1400
Structure of a commercial dental Ag-Pd-Cu-Au casting alloy, The. Niemi, L., *et al.* 149
Tarnish and corrosion of a commercial dental Ag-Pd-Cu-Au casting alloy. Niemi, L. 1014
Tarnishing and structures of some annealed dental low-gold ailoys. Herø, H. 926

DENTAL AMALGAM

Acceleration of corrosion of dental amalgam by abrasion. Marek, M. 1010
Effect of dental amalgam restorations on blood mercury levels, The. Abraham, J.E., *et al.* 71
Experimental marginal leakage around dental amalgams placed in artificial cavities. Jodaikin, A., *et al.* 1090
In vivo and *in vitro* wear of potential posterior composites. Lutz, F., *et al.* 914
Influence of modification of cavity design on

distribution of stresses in a restored molar, The. de Vree, J.H.P., *et al.* 1217
Microprobe analysis of three high-copper amalgams. Mahler, D.B., *et al.* 921

DENTAL ARCH

Crown area as an indicator of changing crown sizes in human pre-natal teeth. Prasad, N., *et al.* 1302

DENTAL CALCULUS

In vivo remineralization of human enamel and dental calculus formation. Hoyer, I., *et al.* 1136

DENTAL CARIES

Acceleration of remineralization *in vitro* by sodium monofluorophosphate and sodium fluoride. Mellberg, J.R., *et al.* 1130
Analysis of covariance in dental caries clinical trials: discussion of Dr. Grainger's presentation. Slakter, M.J. 772[!]
Analysis of covariance in dental caries clinical trials. Grainger, R.M., *et al.* 766[!]
Anti-cariogenic potential of xylitol in comparison with sodium fluoride in rat caries experiments, The. Havenaar, R. 120
Assessing treatment effects in caries trials using ordered categorical data. Fleiss, J.L. 778[!]
Categorical methods for assessing treatment effects in caries clinical trials: discussion of Dr. Fleiss' presentation. D'Agostino, R.B. 783[!]
Cements containing syringic acid esters *o*-ethoxybenzoic acid and zinc oxide. Brauer, G.M., *et al.* 137
Comparison of *s. mutans* prevalence in relation to caries experience in Norwegian and immigrant Vietnamese children, A. Scheie, A.A., *et al.* 1383
Critical evaluation of some problems associated with clinical caries trials by computer simulation, A. Lu, K.H., *et al.* 796[!]
Critical evaluation of some problems associated with clinical caries trials by computer simulation: discussion of Dr. Lu's presentation, A. Zimmerman, S.O. 805[!]
Development of an index for the prevalence of root caries: discussion of Dr. Katz' presentation. Mumma, R.D., Jr. 818[!]
Development of an index for the prevalence of root caries. Katz, R.V. 814[!]
Effect of an antibacterial solution on the microflora of human incipient fissure caries, The. Meiers, J.C., *et al.* 47
Effect of cheese, with and without sucrose, on dental caries and recovery of *streptococcus mutans* in rats. Rosen, S., *et al.* 894
Effect of chlorhexidine-fluoride applications without and with Sr and Zn on caries, plaque, and gingiva in rats. Luoma, H., *et al.* 1193
Effect of daily rinsing with stannous fluoride on plaque and gingivitis: final report. Leverett, D.H., *et al.* 1083
Effects of sequential calcium phosphate-fluoride rinses on dental plaque, staining, fluoride uptake, and caries in rats. Shern, R.J., *et al.* 1355
Enamel fluoride uptake and acid resistance in subjects with high and low experimental cariogenicity. Ostrom, C.A., *et al.* 133
Fissure removal and needle scraping for evaluation of the bacteria in occlusal fissures of human teeth. Meiers, J.C., *et al.* 1051
Formation and remineralization of artificial white spot lesions: a constant composition approach, The. de Rooij, J.F., *et al.* 864
How is it decided when to conduct a large-scale caries clinical trial?: discussion of Dr. Briner's presentation. Carlos, J.P. 717[!]
How is it decided when to conduct a large-scale caries clinical trial? Briner, W.W. 715[!]
Improvement of diagnostic methods in clinical caries trials: discussion of Dr. Marthaler's presentation. Fischman, S.L. 750[!]
Improvement of diagnostic methods in clinical caries trials. Marthaler, T.M. 746[!]
In vitro method for making repeated pH measurements on human dental plaque, An. Bibby, B.G., *et al.* 906
Interim clinical evaluations in caries clinical trials: discussion of Dr. Poulsen's presentation. Greenberg, B.G. 739[!]
Interim clinical evaluations in caries clinical trials. Poulsen, S., *et al.* 736[!]
Management and evaluation of the effects of misclassification in a controlled clinical trial. Bell, R.M., *et al.* 731[!]
Management and evaluation of the effects of misclassification in a controlled clinical trial: discussion of Dr. Bell's presentation. Smith, M.R. 735[!]
Measurement and expression of treatment effects in caries clinical trials: discussion of Dr. Horowitz' presentation. Holloway, P.J. 713[!]
Measurement and expression of treatment effects in caries clinical trials. Horowitz, H.S. 709[!]
Model for producing caries-like lesions in enamel and dentin using oral bacteria *in vitro*, A. Clarkson, B.H., *et al.* 1186
Physicochemical bench-scale caries model, A. Chow, L.C., *et al.* 868
Post-treatment effect of fluoride varnishes in children with a high prevalence of dental caries in a community with fluoridated water. Seppä, L., *et al.* 1221
Screening of sugars inhibitory against sucrose-dependent synthesis and adherence of insoluble glucan and acid production by *streptococcus mutans*. Imai,S., *et al.* 1293
Specific non-parametric approaches to analyzing caries clinical trials: discussion of Dr. Varma's presentation. Imrey, P.B. 788[!]
Specific non-parametric approaches to analyzing caries clinical trials. Varma, A.O. 784[!]
Stratification methods in caries clinical trials: discussion of Dr. Kingman's presentation. Smith, H., Jr. 777[!]
Stratification methods in caries clinical trials. Kingman, A. 773[!]
Streptococcus mutans and caries prevalence in Lisu and Karen of northern Thailand. Reichart, P., *et al.* 56
Streptococcus mutans levels and biotypes in Egyptian and Saudi Arabian students during the first months of residency in the United States. Farghaly, M.M., *et al.* 52
Types of clinical caries studies: discussion of Dr. Stamm's presentation. Bagramian, R.A. 708[!]
Types of clinical caries studies: epidemiological surveys, randomized clinical trials, and demonstration programs. Stamm, J.W. 701[!]
Use of misclassification models in the evaluation of caries clinical trials: discussion of Dr. Reed's presentation, The. Goldberg, J.D. 730[!]
Use of misclassification models in the evaluation of caries clinical trials, The. Reed, G.F. 727[!]
Use of supporting laboratory or clinical data in caries clinical trials. Bowen, W.H. 757[!]
Use of supporting laboratory or clinical data in caries clinical trials: discussion of Dr. Bowen's presentation. Mandel, I.D. 760[!]
Virulence factors of *streptococcus mutans* and dental caries prevention. Hamada, S., *et al.* 407*
Workshop report: characteristics of cariogenic bacteria. Rogers, A.H., *et al.* 471*
Workshop report: effectiveness of caries control measures, The. Storey, E., *et al.* 473*

DENTAL CASTING TECHNIC

Structure of a commercial dental Ag-Pd-Cu-Au casting alloy, The. Niemi, L., *et al.* 149

DENTAL CAVITY

Experimental marginal leakage around dental amalgams placed in artificial cavities. Jodaikin, A., *et al.* 1090

DENTAL CAVITY LINING

Class 2 composite restorations: prevention *in vitro* of contraction gaps. Jørgensen, K.D., *et al.* 141
Relaxation of polymerization contraction stresses by flow in dental composites. Davidson, C.L., *et al.* 146

DENTAL CEMENTS

Cement distribution and bond strength in cemented posts. Goldman, M., *et al.* 1392
Cements containing syringic acid esters *o*-ethoxybenzoic acid and zinc oxide. Brauer, G.M., *et al.* 137
Dielectric properties of glass ionomer cements—further studies. Tay, W.M., *et al.* 74
Influence of restorative dental materials on heat transmission in human teeth, The. Spierings, Th. A.M., *et al.* 1096
Intermediate restoratives from *n*-hexyl vanillate-EBA-ZnO-glass composites. Brauer, G.M., *et al.* 1315
Long-term F release from glass ionomer cements. Swartz, M.L., *et al.* 158

DENTAL ENAMEL

Comparison of artificial white spots by microradiography and polarized light microscopy. Wefel, J.S., *et al.* 1271
Comparison of the tensile bond strengths of composite resins to longitudinal and transverse sections of enamel prisms in human teeth, A. Munechika, T., *et al.* 1079
Crystallographic structure of enamel surfaces treated with topical fluoride agents: TEM and XRD considerations. Nelson, D.G.A., *et al.* 6
Determination of rpm, time, and load used in oral prophylaxis polishing *in vivo*. Christensen, R.P., *et al.* 1376
Distribution of enamel defects and the association with respiratory distress in very low birthweight infants. Johnsen, D., *et al.* 59
Effect of polyvalent metal ion mordanting on caries-like lesion progression in enamel, The. Clarkson, B.H., *et al.* 13
Enamel fluoride uptake and acid resistance in subjects with high and low experimental cariogenicity. Ostrom, C.A., *et al.* 133
Fluoride in deciduous teeth from an anti-caries clinical study. Sakkab, N.Y., *et al.* 1201

Fluoride uptake by partially-decalcified enamel: a study of possible involvement of acid phosphate ions. Moore, A.J. 1056
Formation and remineralization of artificial white spot lesions: a constant composition approach, The. de Rooij, J.F., *et al.* 864
Fracture properties of human enamel and dentin in an aqueous environment. Rasmussen, S.T., *et al.* 1362
Fracture properties of human teeth in proximity to the dentinoenamel junction. Rasmussen, S.T. 1279
In vivo remineralization of human enamel and dental calculus formation. Hoyer, I., *et al.* 1136
Inhibition of seeded growth of enamel apatite crystals by amelogenin and enamelin proteins *in vitro*. Doi, Y., *et al.* 98
Microprobe and SEM analysis of surface coatings on caries-like lesions in enamel after metal ion mordanting and APF application. Clarkson, B.H., *et al.* 106
Model for producing caries-like lesions in enamel and dentin using oral bacteria *in vitro*, A. Clarkson, B.H., *et al.* 1186
Topical fluoride application and lesion progression *in vitro*. Wefel, J.S., *et al.* 1276

DENTAL HEALTH SURVEYS

Dental disease and work loss. Reisine, S.T. 1158

DENTAL IMPLANTATION

Microbiological assessment of dental plaque on bovine enamel implants worn intra-orally in children. Minah, G.E., *et al.* 1006

DENTAL IMPRESSION MATERIALS

Tear strength of non-aqueous impression materials. Keck, S.C., *et al* 155

DENTAL OCCLUSION

Frequency-dependent modulation of rhythmic human jaw movements. Morimoto, T., *et al.* 1310
Three-dimensional measurements of the occlusal surfaces of upper molars in a Dutch population. Kanazawa, E., *et al.* 1298

DENTAL PINS

Wear behavior of a composite restorative and various styli in sliding contact. Rice, S.L., *et al.* 932

DENTAL PLAQUE

Comparison of *s.mutans* prevalence in relation to caries experience in Norwegian and immigrant Vietnamese children, A. Scheie, A.A., *et al.* 1383
Conceptual model for the co-existence of *streptococcus* spp. and *actinomyces* spp. in dental plaque, A. van der Hoeven, J.S., *et al.* 389*
Effect of an antibacterial solution on the microflora of human incipient fissure caries, The. Meiers, J.C., *et al.* 47
Effect of chlorhexidine-fluoride applications without and with Sr and Zn on caries, plaque, and gingiva in rats. Luoma, H., *et al.* 1193
Effect of daily rinsing with stannous fluoride on plaque and gingivitis: final report. Leverett, D.H., *et al.* 1083
Effects of fatty acids and their monoesters on the metabolic activity of dental plaque, The. Hayes, M.L. 2
Effects of sequential calcium phosphate-fluoride rinses on dental plaque, staining, fluoride uptake, and caries in rats. Shern, R.J., *et al.* 1355
Fissure removal and needle scraping for evaluation of the bacteria in occlusal fissures of human teeth. Meiers, J.C., *et al.* 1051
In vitro method for making repeated pH measurements on human dental plaque, An. Bibby, B.G., *et al.* 906
Incisor plaque model in rats, An. Schemehorn, B.R., *et al.* 32
Microbiological assessment of dental plaque on bovine enamel implants worn intra-orally in children. Minah, G.E., *et al.* 1006
Selection of *streptococcus mutans* and lactobacilli in an intra-oral human caries model. Arneberg, P., *et al.* 1197
Streptococcus mutans and caries prevalence in Lisu and Karen of northern Thailand. Reichart, P., *et al.* 56
Streptococcus mutans levels and biotypes in Egyptian and Saudi Arabian students during the first months of residency in the United States. Farghaly, M.M., *et al.* 52
Ureolytic microflora of immature dental plaque before and after rinsing with a urea-based mineralizing solution, The. Gallagher, I. H. C., *et al.* 1037
Virulence factors of *streptococcus mutans* and dental caries prevention. Hamada, S., *et al.* 407*

DENTAL PORCELAIN

Masking power of dental opaque porcelains. Woolsey, G.D., *et al.* 936
Shear testing of the porcelain-metal bond. Drummond, J.L., *et al.* 1400

DENTAL PROPHYLAXIS

Determination of rpm, time, and load used in oral prophylaxis polishing *in vivo*. Christensen, R.P., *et al.* 1376

DENTAL PULP

Effect of eugenol on respiration and division in human pulp, mouse fibroblasts, and liver cells *in vitro*. Hume, W.R. 1262
Lipid peroxidation as a possible cause of benzoyl peroxide toxicity in rabbit dental pulp—a microsomal lipid peroxidation *in vitro*. Terakado, M., *et al.* 901
Properties of kininase in rat dental pulp. Maita, E., *et al.* 1067
Similarity between alkaline phosphatases from bovine dental pulp and liver. Harada, K., *et al.* 28

DENTAL STRESS ANALYSIS

Competition between the composite-dentin bond strength and the polymerization contraction stress, The. Davidson, C.L., *et al.* 1396
Effect of metal design on marginal distortion of metal-ceramic crowns. DeHoff, P.H., *et al.* 1327
Influence of modification of cavity design on distribution of stresses in a restored molar, The. de Vree, J.H.P., *et al.* 1217
Shear testing of the porcelain-metal bond. Drummond, J.L., *et al.* 1400

DENTIFRICES

Improvement in selection of study participants: discussion of Dr. Downer's presentation. Mainwaring, P.J. 755†
Improvement in selection of study participants. Downer, M.C., *et al.* 752†
International collaborative study of laboratory methods for assessing abrasivity to dentin, An. Hefferren, J.J., *et al.* 1176

DENTIN

Analysis of the release and the diffusion through dentin of eugenol from zinc oxide-eugenol mixtures, An. Hume, W.R. 881
Bond strength between dentin and restorative resins mediated by mixtures of HEMA and glutaraldehyde. Munksgaard, E.C., *et al.* 1087
Competition between the composite-dentin bond strength and the polymerization contraction stress, The. Davidson, C.L., *et al.* 1396
Determination of rpm, time, and load used in oral prophylaxis polishing *in vivo*. Christensen, R.P., *et al.* 1376
Fluoride levels in dentin after iontophoresis of 2% NaF. Wilson, J.M., *et al.* 897
Fracture properties of human enamel and dentin in an aqueous environment. Rasmussen, S.T., *et al.* 1362
Fracture properties of human teeth in proximity to the dentinoenamel junction. Rasmussen, S.T. 1279
Inhibition of marginal leakage with a dentin bonding agent. Dumsha, T., *et al.* 1255
International collaborative study of laboratory methods for assessing abrasivity to dentin, An. Hefferren, J.J., *et al.* 1176
Lamina limitans of human dentinal tubules, The. Thomas, H.F. 1064
Model for producing caries-like lesions in enamel and dentin using oral bacteria *in vitro*, A. Clarkson, B.H., *et al.* 1186

DENTITION

In vivo remineralization of human enamel and dental calculus formation. Hoyer, I., *et al.* 1136

DIABETES

Extensive degradation of recently synthesized collagen in gingiva of normal and streptozotocin-induced diabetic rats. Schneir, M.L., *et al.* 23

DIAGNOSIS, COMPUTER-ASSISTED

Critical evaluation of some problems associated with clinical caries trials by computer simulation, A. Lu, K.H., *et al.* 796†
Critical evaluation of some problems associated with clinical caries trials by computer simulation: discussion of Dr. Lu's presentation, A. Zimmerman, S.O. 805†
Use and misuse of computers in the design and analysis of dental clinical trials. Brunelle, J.A. 820†
Use and misuse of computers in the design and analysis of dental clinical trials: discussion of Ms. Brunelle's presentation. Bollmer, B.W. 823

DIAGNOSIS, ORAL

Improvement of diagnostic methods in clinical caries trials: discussion of Dr. Marthaler's presentation. Fischman, S.L. 750†
Improvement of diagnostic methods in clinical caries trials. Marthaler, T.M. 746†

DIET

Effects of fatty acids and their monoesters on the metabolic activity of dental plaque, The. Hayes, M.L. 2

Hominoid dental microwear: complication in the use of microwear analysis to detect diet. Gordon, K.D. 1043

9, 10—DIMETHYL—1,2—BENZANTHRACENE

Incisional biopsy and seeding in hamster cheek pouch carcinoma. Safour, I.M., *et al.* 1116

DMF INDEX

Critical evaluation of some problems associated with clinical caries trials by computer simulation, A. Lu, K.H., *et al.* 796[!]

Critical evaluation of some problems associated with clinical caries trials by computer simulation: discussion of Dr. Lu's presentation, A. Zimmerman, S.O. 805[!]

Hypothesis testing *vs.* statistical estimation procedures in caries clinical trials: discussion of Dr. Fertig's presentation. O'Neill, R.T. 812[!]

Hypothesis testing *vs.* statistical estimation procedures in caries clinical trials. Fertig, J.W. 808[!]

Measurement and expression of treatment effects in caries clinical trials: discussion of Dr. Horowitz' presentation. Holloway, P.J. 713[!]

Measurement and expression of treatment effects in caries clinical trials. Horowitz, H.S. 709[!]

Specific non-parametric approaches to analyzing caries clinical trials: discussion of Dr. Varma's presentation. Imrey, P.B. 788[!]

Specific non-parametric approaches to analyzing caries clinical trials. Varma, A.O. 784[!]

Streptococcus mutans and caries prevalence in Lisu and Karen of northern Thailand. Reichart, P., *et al.* 56

Streptococcus mutans levels and biotypes in Egyptian and Saudi Arabian students during the first months of residency in the United States. Farghaly, M.M., *et al.* 52

DOGS

Effect of splint placement on the black-pigmented *bacteroides* and spirochetes in the dental plaque of beagle dogs. Mikx, F.H.M., *et al.* 1284

DRUGS

Clinical assessment of new I.V. sedation agents and techniques. Peterson, L.J. 838[%]

Clinical effectiveness and untoward effects of new agents and techniques. Korttila, K. 848[%]

Conscious sedation: an alternative to general anesthesia. Bennett, C.R. 832[%]

Development of new agents and techniques for intravenous analgesia. Thut, P.D. 834[%]

Differential pharmacology of drugs used for intravenous pre-medication. Dionne, R.A. 842[%]

Panel discussion on critical issues for future research on intravenous sedation—a consensus. Bennett, C.R. 853[%]

EDTA

Effect of long-term administration of fluoride on the levels of EDTA-soluble protein and γ-carboxyglutamic acid in rat incisor teeth. Smid, J.R., *et al.* 1061

SEM study of posts cemented with an unfilled resin, An. Goldman, M., *et al.* 1003

ELECTROMYOGRAPHY

Electromyographic activity of anterior temporal area pain patients and non-pain subjects. Majewski, R.F., *et al.* 1228

ELECTROPHORESIS

Chemical analyses of membranes isolated from *streptococcus mutans* BHT. Crowley, P.J., *et al.* 1343

EPIDEMIOLOGIC METHODS

Types of clinical caries studies: discussion of Dr. Stamm's presentation. Bagramian, R.A. 708[!]

Types of clinical caries studies: epidemiological surveys, randomized clinical trials, and demonstration programs. Stamm, J.W. 701[!]

EPINEPHRINE

Effects of epinephrine, norepinephrine, and carbachol on oxygen consumption in rat sublingual gland slices, The. Terzić, M., *et al.* 1360

EPITHELIUM

Glycoconjugate receptors involved in the adhesion of *escherichia coli* and *streptococcus pneumoniae* to epithelial cells. Svanborg-Edén, C., *et al.* 386[#]

ESCHERICHIA COLI

Glycoconjugate receptors involved in the adhesion of *escherichia coli* and *streptococcus pneumoniae* to epithelial cells. Svanborg-Edén, C., *et al.* 386[#]

ESTERS

Intermediate restoratives from *n*-hexyl vanillate-EBA-ZnO-glass composites. Brauer, G.M., *et al.* 1315

ETHICS, DENTAL

Ethical considerations and study design: discussion of Dr. Heifetz' presentation. Alman, J.E. 723[!]

Ethical considerations and study design. Heifetz, S.B. 719[!]

EUGENOL

Analysis of the release and the diffusion through dentin of eugenol from zinc oxide-eugenol mixtures, An. Hume, W.R. 881

Effect of eugenol on respiration and division in human pulp, mouse fibroblasts, and liver cells *in vitro*. Hume, W.R. 1262

FATTY ACIDS

Chemical analyses of membranes isolated from *streptococcus mutans* BHT. Crowley, P.J., *et al.* 1343

Effects of fatty acids and their monoesters on the metabolic activity of dental plaque, The. Hayes, M.L. 2

FIBROBLASTS

Effect of eugenol on respiration and division in human pulp, mouse fibroblasts, and liver cells *in vitro*. Hume, W.R. 1262

Fluoride-treated roots and viability and attachment of human gingival fibroblasts. Al-joburi, W.A., *et al.* 1206

Human gingival fibroblast production of interferon. Rose, G.G., *et al.* 1369

FLOW CYTOMETRY

Automated immunofluorescent speciation of oral bacteria using flow cytometry. Barnett, J.M., *et al.* 1040

FLUORIDES

Acceleration of remineralization *in vitro* by sodium monofluorophosphate and sodium fluoride. Mellberg, J.R., *et al.* 1130

Anti-bacterial determinants of stannous fluoride. Camosci, D.A., *et al.* 1121

Anti-cariogenic potential of xylitol in comparison with sodium fluoride in rat caries experiments, The. Havenaar, R. 120

Caries prevention in rats by fluoride varnish treatment combined with addition of fluoride to dietary sugar. Seppä, L., *et al.* 1190

Crystallographic structure of enamel surfaces treated with topical fluoride agents: TEM and XRD considerations. Nelson, D.G.A., *et al.* 6

Effect of daily rinsing with stannous fluoride on plaque and gingivitis: final report. Leverett, D.H., *et al.* 1083

Effects of fluoride, lithium, and strontium on intracellular polysaccharide accumulation in *s. mutans* and *a. viscosus*. Wegman, M.R., *et al.* 1126

Effect of long-term administration of fluoride on the levels of EDTA-soluble protein and γ-carboxyglutamic acid in rat incisor teeth. Smid, J.R., *et al.* 1061

Effect of polyvalent metal ion mordanting on caries-like lesion progression in enamel, The. Clarkson, B.H., *et al.* 13

Effects of sequential calcium phosphate-fluoride rinses on dental plaque, staining, fluoride uptake, and caries in rats. Shern, R.J., *et al.* 1355

Enamel fluoride uptake and acid resistance in subjects with high and low experimental cariogenicity. Ostrom, C.A., *et al.* 133

Experimental osteo-fluorosis in the domestic pig: a histomorphometric study of vertebral trabecular bone. Kragstrup, J., *et al.* 885

Fluoride in deciduous teeth from an anti-caries clinical study. Sakkab, N.Y., *et al.* 1201

Fluoride levels in dentin after iontophoresis of 2% NaF. Wilson, J.M., *et al.* 897

Fluoride-treated roots and viability and attachment of human gingival fibroblasts. Al-joburi, W.A., *et al.* 1206

Fluoride uptake by partially-decalcified enamel: a study of possible involvement of acid phosphate ions. Moore, A.J. 1056

Microprobe and SEM analysis of surface coatings on caries-like lesions in enamel after metal ion mordanting and APF application. Clarkson, B.H., *et al.* 106

Oral fluoride retention with thixotropic and APF gels and foam-lined and unlined trays. LeCompte, E.J., *et al.* 69

Post-treatment effect of fluoride varnishes in children with a high prevalence of dental caries in a community with fluoridated water. Seppä, L., *et al.* 1221

Topical fluoride application and lesion progression *in vitro*. Wefel, J.S., *et al.* 1276

FOURIER ANALYSIS

Fourier transform infrared analysis of degree of polymerization in unfilled resins—methods comparison. Ferracane, J.L., *et al.* 1093

GANGLIA

Somatotopic organization and transmedian pathways of the rat trigeminal ganglion. Shellhammer, S.B., *et al.* 1289

GINGIVA

Extensive degradation of recently synthesized collagen in gingiva of normal and streptozotocin-induced diabetic rats. Schneir, M.L., *et al.* 23

Human gingival fibroblast production of interferon. Rose, G.G., *et al.* 1369

Thymocyte activating factor(s) in human gingival fluids. Mergenhagen, S.E., 461*

GINGIVAL POCKET

Local immunoglobulin synthesis in juvenile periodontitis: initial findings. Mason, H.D., *et al.* 1211

GINGIVITIS

Effect of daily rinsing with stannous fluoride on plaque and gingivitis: final report. Leverett, D. H., *et al.* 1083

GLASS IONOMER CEMENTS

Dielectric properties of glass ionomer cements—further studies. Tay, W.M., *et al.* 74

Long-term F release from glass ionomer cements. Swartz, M.L., *et al.* 158

GLUCANS

Screening of sugars inhibitory against sucrose-dependent synthesis and adherence of insoluble glucan and acid production by *streptococcus mutans*. Imai, S., *et al.* 1293

Virulence factors of *streptococcus mutans* and dental caries prevention. Hamada, S., *et al.* 407*

GLUCOSE

Relationship of bioenergetic processes to the pathogenic properties of oral bacteria. Marsh, P.D., *et al.* 401*

GLUCOSYLTRANSFERASES

Activity of *streptococcus mutans* α-D-glucosyltransferases released under various growth conditions. Walter, G.J., *et al.* 397*

Virulence factors of *streptococcus mutans* and dental caries prevention. Hamada, S., *et al.* 407*

GLUTARALDEHYDE

Bond strength between dentin and restorative resins mediated by mixtures of HEMA and glutaraldehyde. Munksgaard, E. C., *et al.* 1087

GRAFT REJECTION

Skin graft rejection after allogeneic tooth transplants in mice. Riviere, G.R., 41

GRAFT SURVIVAL

Influence of serum on cultured murine tooth organ allotransplants. Riviere, G.R., 1072

GRAINGER'S SEVERITY INDEX

Assessing treatment effects in caries trials using ordered categorical data. Fleiss, J.L. 778[!]

Categorical methods for assessing treatment effects in caries clinical trials: discussion of Dr. Fleiss' presentation. D'Agostino, R.B. 783[!]

Specific non-parametric approaches to analyzing caries clinical trials: discussion of Dr. Varma's presentation. Imrey, P.B. 788[!]

Specific non-parametric approaches to analyzing caries clinical trials. Varma, A.O. 784[!]

Stratification methods in caries clinical trials: discussion of Dr. Kingman's presentation. Smith, H., Jr. 777[!]

Stratification methods in caries clinical trials. Kingman, A. 773[!]

GUINEA PIGS

Induction of immunological tolerance by oral administration of nickel and chromium. Vreeburg, K.J.J., *et al.* 124

HAMSTERS

Incisional biopsy and seeding in hamster cheek pouch carcinoma. Safour, I.M., *et al.* 1116

HEAT TRANSMISSION

Influence of restorative dental materials on heat transmission in human teeth, The. Spierings, Th. A.M., *et al.* 1096

HERPESVIRUS

Humoral immune responses to adenoviruses, herpes virus type 1, and *candida albicans* in sera of dental patients with oral neoplastic and periodontal diseases. Winters, W.D., *et al.* 1306

Microbial pathogenicity in oral soft tissue diseases. Greenspan, J.S., *et al.* 431*

HORSERADISH

Somatotopic organization and transmedian pathways of the rat trigeminal ganglion. Shellhammer, S.B., *et al.* 1289

HOST-PARASITE RELATIONS

Host response in experimental periodontal disease. Taubman, M.A., *et al.* 455*

Host responses in periodontal diseases. Genco, R.J., *et al.* 441*

Neutrophil receptor modulation in the pathogenesis of periodontal diseases. Van Dyke, T.E. 452*

Thymocyte activating factor(s) in human gingival fluids. Mergenhagen, S.E. 461*

HYDROGEN SULFIDE

Effect of hydrogen sulfide and methyl mercaptan on the permeability of oral mucosa. Ng, W., *et al.* 994[?]

HYDROXYAPATITES

Chemical analyses of membranes isolated from *streptococcus mutans* BHT. Crowley, P.J., *et al.* 1343

Preparation of hydroxyapatite crystals and their behavior as seeds for crystal growth. Aoba, T., *et al.* 874

IADR/AADR

Abstracts of papers, 62nd General Session IADR, Annual Session AADR. 163

Divisional abstracts. 486

IMAGE RECEPTORS

Comparison of xeroradiographs and film for detection of periapical lesions. White, S.C., *et al.* 910

IMMUNOGLOBULINS

Host responses in periodontal diseases. Genco, R.J., *et al.* 441*

Humoral immune responses to adenoviruses, herpes virus type 1, and *candida albicans* in sera of dental patients with oral neoplastic and periodontal diseases. Winters, W.D., *et al.* 1306

Induction and delivery of mucosal immune responses. Husband, A.J., *et al.* 465*

Local immunoglobulin synthesis in juvenile periodontitis: initial findings. Mason, H.D., *et al.* 1211

Workshop report: periodontium as a watershed between mucosal and systemic immunology, The. Seymour, G.J., *et al.* 474*

INCISOR

Distribution of enamel defects and the association with respiratory distress in very low birthweight infants. Johnsen, D., *et al.* 59

Effect of long-term administration of fluoride on the levels of EDTA-soluble protein and γ-carboxyglutamic acid in rat incisor teeth. Smid, J.R., *et al.* 1061

Extensive degradation of recently synthesized collagen in gingiva of normal and streptozotocin-induced diabetic rats. Schneir, M.L., *et al.* 23

Incisor plaque model in rats, An. Schemehorn, B.R., *et al.* 32

Rat intestinal vitamin D-dependent calcium-binding protein: immunocytochemical localization in incisor ameloblasts. Taylor, A.N., *et al.* 94

INOSITOL PHOSPHATES

Inhibitory effect of inositol phosphates on parathyroid hormone-induced bone resorption in organ cultures. Gomes, B.C., *et al.* 890

INTERFERON

Human gingival fibroblast production of interferon. Rose, G.G., *et al.* 1369

INTESTINES

Induction and delivery of mucosal immune responses. Husband, A.J., *et al.* 465*

IONTOPHORESIS

Fluoride levels in dentin after iontophoresis of 2% NaF. Wilson, J.M., *et al.* 897

ISOPROTERENOL

Effect of chronic isoproterenol administration on the plasma membrane of acinar cells in rat submandibular gland, The. Sahara, N., *et al.* 1028

Microheterogeneity of rat parotid gland proteins after chronic treatment with isoproterenol. Mednieks, M.I., *et al.* 87

Regulation of tight junctional permeability in the rat parotid gland by autonomic agonists. Mazariegos, M.R., *et al.* 1102

JAW RELATION RECORD

Frequency-dependent modulation of rhythmic human jaw movements. Morimoto, T., *et al.* 1310

KININASE

Properties of kininase in rat dental pulp. Maita, E., *et al.* 1067

LABORATORIES, DENTAL

International collaborative study of laboratory methods for assessing abrasivity to dentin, An. Hefferren, J. J., *et al.* 1176

LABORATORY TESTING TECHNIQUES

Use of supporting laboratory or clinical data in caries clinical trials. Bowen, W. H. 757[!]

Use of supporting laboratory or clinical data in caries clinical trials: discussion of Dr. Bowen's presentation. Mandel, I.D. 760[!]

LACTOBACILLUS

Relationship of bioenergetic processes to the pathogenic properties of oral bacteria. Marsh, P.D., *et al.* 401[#]

Selection of *streptococcus mutans* and lactobacilli in an intra-oral human caries model. Arneberg, P., *et al.* 1197

LECTINS

Adherent interactions which may affect microbial ecology in the mouth. Gibbons, R. J. 378[#]

LIPIDS

Lipid peroxidation as a possible cause of benzoyl peroxide toxicity in rabbit dental pulp—a microsomal lipid peroxidation *in vitro*. Terakado, M., *et al.* 901

LITHIUM

Effects of fluoride, lithium, and strontium on intracellular polysaccharide accumulation in *s. mutans* and *a. viscosus*. Wegman, M. R., *et al.* 1126

LYMPHOCYTES

Host response in experimental periodontal disease. Taubman, M. A., *et al.* 455[#]

Host responses in periodontal diseases. Genco, R. J., *et al.* 441[#]

Induction and delivery of mucosal immune responses. Husband, A. J., *et al.* 465[#]

Thymocyte activating factor(s) in human gingival fluids. Mergenhagen, S. E. 461[#]

MACROPHAGES

Host responses in periodontal diseases. Genco, R. J., *et al.* 441[#]

Interaction of bacterial peptidoglycan with macrophages in chronic inflammation, The. Hunter, N. 427[#]

MALOCCLUSION

Studies on chondrocytes from mandibular condylar cartilage, nasal septal cartilage, and spheno-occipital synchondrosis in culture. I. Morphology, growth, glycosaminoglycan synthesis, and responsiveness to bovine parathyroid hormone (1-34). Takigawa, M., *et al.* 19

MANDIBLE

Augmentation of rat mandibular ridge with demineralized bone implants. Kaban, L. B., *et al.* 998

MANDIBULAR CONDYLE

Studies on chondrocytes from mandibular condylar cartilage, nasal septal cartilage, and spheno-occipital synchondrosis in culture. I. Morphology, growth, glycosaminoglycan synthesis, and responsiveness to bovine parathyroid hormone (1-34). Takigawa, M., *et al.* 19

Tissue repair after condylectomy in growing *macaca fascicularis*. Bakker, V.M., *et al.* 114

MARMOSETS

Comparison of tooth eruption patterns between two colonies of young marmosets (*callithrix jacchus*), A. Goss, A.N. 44

MASTICATION

Frequency-dependent modulation of rhythmic human jaw movements. Morimoto, T., *et al.* 1310

MASTICATORY MUSCLES

Electromyographic activity of anterior temporal area pain patients and non-pain subjects. Majewski, R.F., *et al.* 1228

Relationships between masticatory muscle cross-section and skull shape. Weijs, W.A., *et al.* 1154

MERCURY

Effect of dental amalgam restorations on blood mercury levels, The. Abraham, J.E., *et al.* 71

METALS

Effect of polyvalent metal ion mordanting on caries-like lesion progression in enamel, The. Clarkson, B.H., *et al.* 13

Effect of some metal ions on the intradental sensory nerves of the cat, The. Panopoulos, P., *et al.* 37

Microprobe and SEM analysis of surface coatings on caries-like lesions in enamel after metal ion mordanting and APF application. Clarkson, B.H., *et al.* 106

METHACRYLATES

Bond strength between dentin and restorative resins mediated by mixtures of HEMA and glutaraldehyde. Munksgaard, E.C., *et al.* 1087

Fourier transform infrared analysis of degree of polymerization in unfilled resins—methods comparison. Ferracane, J.L., *et al.* 1093

METRONIDAZOLE

Sustained release device containing metronidazole for periodontal use. Golomb, G., *et al.* 1149

MICE

Reserpinization: effects on parotid gland function. Watson, E., *et al.* 82

Skin graft rejection after allogeneic tooth transplants in mice. Riviere, G.R. 41

MICRORADIOGRAPHY

Comparison of artificial white spots by microradiography and polarized light microscopy. Wefel, J.S., *et al.* 1271

MICROSCOPY

ELECTRON

High-resolution electron microscopy of hydroxyapatite grown in dilute solutions. Aoba, T., *et al.* 1348

Preparation of hydroxyapatite crystals and their behavior as seeds for crystal growth. Aoba, T., *et al.* 874

ELECTRON, SCANNING

Crystallographic structure of enamel surfaces treated with topical fluoride agents: TEM and XRD considerations. Nelson, D.G.A., *et al.* 6

Fracture properties of human enamel and dentin in an aqueous environment. Rasmussen, S.T., *et al.* 1362

Fracture properties of human teeth in proximity to the dentinoenamel junction. Rasmussen, S.T. 1279

Lamina limitans of human dentinal tubules, The. Thomas, H.F. 1064

Microprobe and SEM analysis of surface coatings on caries-like lesions in enamel after metal ion mordanting and APF application. Clarkson, B.H., *et al.* 106

Oscillatory wear tests of dental composites. Pilliar, R.M., *et al.* 1166

SEM study of posts cemented with an unfilled resin, An. Goldman, M., *et al.* 1003

POLARIZATION

Comparison of artificial white spots by microradiography and polarized light microscopy. Wefel, J.S., *et al.* 1271

Model for producing caries-like lesions in enamel and dentin using oral bacteria *in vitro*, A. Clarkson, B.H., *et al.* 1186

MICROTUBULES

Ultrastructural changes in the cementoblasts of rat molars after injection of vincristine. Takuma, S., *et al.* 1108

MODELS

BIOLOGICAL

Incisor plaque model in rats, An. Schemehorn, B.R., *et al.* 32

CHEMICAL

Physicochemical bench-scale caries model, A. Chow, L.C., *et al.* 868

DENTAL

Clinical evaluation methods for posterior composite restorations. Goldberg, A.J., *et al.* 1387

Conceptual model for the co-existence of *streptococcus* spp. and *actinomyces* spp. in dental plaque, A. van der Hoeven, J.S., *et al.* 389[#]

Effect of metal design on marginal distortion of

metal-ceramic crowns. DeHoff, P.H., *et al.* 1327
Enamel fluoride uptake and acid resistance in subjects with high and low experimental cariogenicity. Ostrom, C.A., *et al.* 133
Influence of modification of cavity design on distribution of stresses in a restored molar, The. de Vree, J.H.P., *et al.* 1217
Influence of restorative dental materials on heat transmission in human teeth, The. Spierings, Th. A.M., *et al.* 1096
Microbiological assessment of dental plaque on bovine enamel implants worn intra-orally in children. Minah, G.E., *et al.* 1006
Model system to demonstrate the role of cavitational activity in ultrasonic scaling, A. Walmsley, A.D., *et al.* 1162
Salivary clearance of sugar and its effects on pH changes by *streptococcus mitior* in an artificial mouth. Lagerlöf, F., *et al.* 1266
Stratification methods in caries clinical trials: discussion of Dr. Kingman's presentation. Smith, H., Jr. 777[1]
Stratification methods in caries clinical trials. Kingman, A. 773[1]
Use of misclassification models in the evaluation of caries clinical trials: discussion of Dr. Reed's presentation, The. Goldberg, J.D. 730[1]
Use of misclassification models in the evaluation of caries clinical trials, The. Reed, G.F. 727[1]

MOIRE CONTOUROGRAPHY

Three-dimensional measurements of the occlusal surfaces of upper molars in a Dutch population. Kanazawa, E., *et al.* 1298

MOLAR

Hominoid dental microwear: complication in the use of microwear analysis to detect diet. Gordon, K.D. 1043
Influence of restorative dental materials on heat transmission in human teeth, The. Spierings, Th. A.M., *et al.* 1096
Three-dimensional measurements of the occlusal surfaces of upper molars in a Dutch population. Kanazawa, E., *et al.* 1298
Ultrastructural changes in the cementoblasts of rat molars after injection of vincristine. Takuma, S., *et al.* 1108

MOLECULAR BIOLOGY

Contribution of molecular biology to the understanding and control of microbial infections. Pittard, A.J. 374*

MONKEYS

Tissue repair after condylectomy in growing *macaca fascicularis*. Bakker, V.M., *et al.* 114

MONTE CARLO METHOD

Alpha level distortions with repeated testing of follow-up dental data. Cohen, M.E. 1214

MORPHOGENESIS

Control of morphogenesis in *candida albicans*, The. Shepherd, M.G., *et al.* 435*

MOUTH

Adherent interactions which may affect microbial ecology in the mouth. Gibbons, R.J. 378*

MOUTH MUCOSA

Induction and delivery of mucosal immune responses. Husband, A.J., *et al.* 465*
Workshop report: oral mucosal disease. Reade, P.C., *et al.* 470*

NERVE REGENERATION

Nerve regeneration through collagen tubes. Colin, W., *et al.* 987[2]

NEURAMINIDASE

Neuraminidase activity: a biochemical marker to distinguish *streptococcus mitis* from *streptococcus sanguis*. Murray, P.A., *et al.* 111

NEUTROPHILS

Host responses in periodontal diseases. Genco, R.J., *et al.* 441*
Neutrophil receptor modulation in the pathogenesis of periodontal diseases. Van Dyke, T.E. 452*

NICKEL

Induction of immunological tolerance by oral administration of nickel and chromium. Vreeburg, K.J.J., *et al.* 124

NITROUS OXIDE

Nitrous oxide analgesia: a psychophysical evaluation using verbal descriptor scaling. Heft, M.W., *et al.* 129

ODONTOGENESIS

Ultrastructural changes in the cementoblasts of rat molars after injection of vincristine. Takuma, S., *et al.* 1108

ORTHODONTIC WIRES

Elastic modulus of a triple-stranded stainless steel arch wire *via* three- and four-point bending. Kusy, R.P., *et al.* 1232

OSCILLOMETRY

Oscillatory wear tests of dental composites. Pilliar, R.M., *et al.* 1166

OXIDES

Measurement of oxide adherence to PFM alloys. Mackert, J.R., *et al.* 1335
Oxide compounds on Ni-Cr alloys. Baran, G.R. 1332

PAIN

Conscious sedation: an alternative to general anesthesia. Bennett, C.R. 832%
Differential pharmacology of drugs used for intravenous pre-medication. Dionne, R.A. 842%
Electromyographic activity of anterior temporal area pain patients and non-pain subjects. Majewski, R.F., *et al.* 1228
Nitrous oxide analgesia: a psychophysical evaluation using verbal descriptor scaling. Heft, M.W., *et al.* 129
Panel discussion on critical issues for future research on intravenous sedation—a consensus. Bennett, C.R. 853%

PARATHYROID HORMONES

Inhibitory effect of inositol phosphates on parathyroid hormone-induced bone resorption in organ cultures. Gomes, B.C., *et al.* 890
Studies on chondrocytes from mandibular condylar cartilage, nasal septal cartilage, and spheno-occipital synchondrosis in culture. I. Morphology, growth, glycosaminoglycan synthesis, and responsiveness to bovine parathyroid hormone (1-34). Takigawa, M., *et al.* 19

PAROTID GLAND, *see also* Salivary Glands

Microheterogeneity of rat parotid gland proteins after chronic treatment with isoproterenol. Mednieks, M.I., *et al.* 87
Regulation of tight junctional permeability in the rat parotid gland by autonomic agonists. Mazariegos, M.R., *et al.* 1102
Relationship between concentration of human salivary statherin and inhibition of calcium phosphate precipitation in stimulated human parotid saliva. Hay, D.I., *et al.* 857
Reserpinization: effects on parotid gland function. Watson, E., *et al.* 82
Unstimulated and stimulated parotid salivary flow rate in individuals of different ages. Heft, M.W., *et al.* 1182

PEPTIDOGLYCAN

Interaction of bacterial peptidoglycan with macrophages in chronic inflammation, The. Hunter, N. 427*

PERIAPICAL LESIONS

Comparison of xeroradiographs and film for detection of periapical lesions. White, S.C., *et al.* 910

PERIODONTAL DISEASE

Black-pigmented *bacteroides* species, *capnocytophaga* species, and *actinobacillus actinomycetemcomitans* in human periodontal disease: virulence factors in colonization, survival, and tissue destruction. Slots, J., *et al.* 412*
Colonization of the subgingival area by *bacteroides gingivalis*. Takazoe, I., *et al.* 422*
Effect of hydrogen sulfide and methyl mercaptan on the permeability of oral mucosa. Ng, W., *et al.* 994[2]
Host response in experimental periodontal disease. Taubman, M.A., *et al.* 455*
Host responses in periodontal disease. Genco, R.J., *et al.* 441*
Interaction of bacterial peptidoglycan with macrophages in chronic inflammation, The. Hunter, N. 427*
Neutrophil receptor modulation in the pathogenesis of periodontal diseases. Van Dyke, T.E. 452*
Sustained release device containing metronidazole for periodontal use. Golomb, G., *et al.* 1149
Workshop report: biologically active components of oral bacteria, particularly in relation to oral disease. Rosan, B., *et al.* 472*

PERIODONTAL POCKET

Sustained release device containing metronidazole for periodontal use. Golomb, G., *et al.* 1149

PERIODONTAL SPLINTS

Effect of splint placement on the black-pig-

mented *bacteroides* and spirochetes in the dental plaque of beagle dogs. Mikx, F.H.M., *et al.* 1284

PERIODONTIUM

Workshop report: periodontium as a watershed between mucosal and systemic immunology, The. Seymour, G.J., *et al.* 474*

PERIODONTITIS

Local immunoglobulin synthesis in juvenile periodontitis: initial findings. Mason, H.D., *et al.* 1211

PEROXIDASE

Somatotopic organization and transmedian pathways of the rat trigeminal ganglion. Shellhammer, S.B., *et al.* 1289

PHOSPHOPROTEINS

Relationship between concentration of human salivary statherin and inhibition of calcium phosphate precipitation in stimulated human parotid saliva. Hay, D.I., *et al.* 857

PHOSPHORYLATION

Relationship of bioenergetic processes to the pathogenic properties of oral bacteria. Marsh, P.D., *et al.* 401*

PHYTIC ACID

Inhibitory effect of inositol phosphates on parathyroid hormone-induced bone resorption in organ cultures. Gomes, B.C., *et al.* 890

PILI, BACTERIAL

Function and distribution of different fimbriae on strains of *actinomyces viscosus* and *actinomyces naeslundii*, The. Cisar, J.O., *et al.* 393*

PIT AND FISSURE SEALANTS

Effect of an antibacterial solution on the microflora of human incipient fissure caries, The. Meiers, J.C., *et al.* 47

POLYSACCHARIDES

Effects of fluoride, lithium, and strontium on intracellular polysaccharide accumulation in *s. mutans* and *a. viscosus*. Wegman, M.R., *et al.* 1126

POST AND CORE TECHNIC

Cement distribution and bond strength in cemented posts. Goldman, M., *et al.* 1392

SEM study of posts cemented with an unfilled resin, An. Goldman, M. *et al.* 1003

RABBITS

Lipid peroxidation as a possible cause of benzoyl peroxide toxicity in rabbit dental pulp—a microsomal lipid peroxidation *in vitro*. Terakado, M., *et al.* 901

Similarity between alkaline phosphatases from bovine dental pulp and liver. Harada, K., *et al.* 28

Studies on chondrocytes from mandibular condylar cartilage, nasal septal cartilage, and spheno-occipital synchondrosis in culture. I. Morphology, growth, glycosaminoglycan synthesis, and responsiveness to bovine parathyroid hormone (1-34). Takigawa, M., *et al.* 19

RADIOGRAPHY

Computer correction of projective distortions in dental radiographs. Webber, R.L., *et al.* 1032

RATS

Anti-cariogenic potential of xylitol in comparison with sodium fluoride in rat caries experiments, The. Havenaar, R. 120

Augmentation of rat mandibular ridge with demineralized bone implants. Kaban, L.B., *et al.* 998

Caries prevention in rats by fluoride varnish treatment combined with addition of fluoride to dietary sugar. Seppä, L., *et al.* 1190

Effect of cheese, with and without sucrose, on dental caries and recovery of *streptococcus mutans* in rats. Rosen, S., *et al.* 894

Effect of chlorhexidine-fluoride applications without and with Sr and Zn on caries, plaque, and gingiva in rats. Luoma, H., *et al.* 1193

Effect of chronic isoproterenol administration on the plasma membrane of acinar cells in rat submandibular gland, The. Sahara, N., *et al.* 1028

Effect of long-term administration of fluoride on the levels of EDTA-soluble protein and γ-carboxyglutamic acid in rat incisor teeth. Smid, J.R., *et al.* 1061

Effects of epinephrine, norepinephrine, and carbachol on oxygen consumption in rat sublingual gland slices, The. Terzić, M., *et al.* 1360

Effects of sequential calcium phosphate-fluoride rinses on dental plaque, staining, fluoride uptake, and caries in rats. Shern, R.J., *et al.* 1355

Extensive degradation of recently synthesized collagen in gingiva of normal and streptozotocin-induced diabetic rats. Schneir, M.L., *et al.* 23

Host response in experimental periodontal disease. Taubman, M.A., *et al.* 455*

Incisor plaque model in rats, An. Schemehorn, B.R., *et al.* 32

Microheterogeneity of rat parotid gland proteins after chronic treatment with isoproterenol. Mednieks, M.I., *et al.* 87

Nerve regeneration through collagen tubes. Colin, W., *et al.* 987?

Properties of kininase in rat dental pulp. Maita, E., *et al.* 1067

Rat intestinal vitamin D-dependent calcium-binding protein: immunocytochemical localization in incisor ameloblasts. Taylor, A.N., *et al.* 94

Regulation of tight junctional permeability in the rat parotid gland by autonomic agonists. Mazariegos, M.R., *et al.* 1102

Somatotopic organization and transmedian pathways of the rat trigeminal ganglion. Shellhammer, S.B., *et al.* 1289

Ultrastructural changes in the cementoblasts of rat molars after injection of vincristine. Takuma, S. *et al.* 1108

Virulence factors of *streptococcus mutans* and dental caries prevention. Hamada, S., *et al.* 407*

RECEPTORS

Effect of some metal ions on the intradental sensory nerves of the cat, The. Panopoulos, P., *et al.* 37

Glycoconjugate receptors involved in the adhesion of *escherichia coli* and *streptococcus pneumoniae* to epithelial cells. Svanborg-Edén, C., *et al.* 386*

RESERPINE

Reserpinization: effects on parotid gland function. Watson, E., *et al.* 82

ROOT CARIES INDEX

Development of an index for the prevalence of root caries: discussion of Dr. Katz' presentation. Mumma, R.D., Jr. 818!

Development of an index for the prevalence of root caries. Katz, R.V. 814!

SALIVA

Adherent interactions which may affect microbial ecology in the mouth. Gibbons, R.J. 378*

Comparison of *s. mutans* prevalence in relation to caries experience in Norwegian and immigrant Vietnamese children, A. Scheie, A.A., *et al.* 1383

Conceptual model for the co-existence of *streptococcus* spp. and *actinomyces* spp. in dental plaque, A. van der Hoeven, J.S., *et al.* 389*

Relationship between concentration of human salivary statherin and inhibition of calcium phosphate precipitation in stimulated human parotid saliva. Hay, D.I., *et al.* 857

Salivary clearance of sugar and its effects on pH changes by *streptococcus mitior* in an artificial mouth. Lagerlöf, F., *et al.* 1266

Unstimulated and stimulated parotid salivary flow rate in individuals of different ages. Heft, M.W., *et al.* 1182

Whole-saliva secretion rates in old and young healthy subjects. Ben-Aryeh, H., *et al.* 1147

SALIVARY GLANDS, *see also* Parotid Gland

Effect of chronic isoproterenol administration on the plasma membrane of acinar cells in rat submandibular gland, The. Sahara, N., *et al.* 1028

Effect of substance P on exocrine secretion by rat submandibular gland cells. Fleming, N., *et al.* 1022

Effects of epinephrine, norepinephrine, and carbachol on oxygen consumption in rat sublingual gland slices, The. Terzić, M., *et al.* 1360

Relationship between concentration of human salivary statherin and inhibition of calcium phosphate precipitation in stimulated human parotid saliva. Hay, D.I., *et al.* 857

Whole-saliva secretion rates in old and young healthy subjects. Ben-Aryeh, H., *et al.* 1147

SCANNING AUGER MICROPROBE

Auger chemical analysis of oxides on Ni-Cr alloys. Baran, G. 76

SEDATIVES

Clinical assessment of new I.V. sedation agents and techniques. Peterson, L.J. 838%

Clinical effectiveness and untoward effects of new agents and techniques. Korttila, K. 848%

Conscious sedation: an alternative to general anesthesia. Bennett, C.R. 832[%]
Panel discussion on critical issues for future research on intravenous sedation—a consensus. Bennett, C.R. 853[%]

SENSORY THRESHOLDS

Nitrous oxide analgesia: a psychophysical evaluation using verbal descriptor scaling. Heft, M.W., *et al.* 129

SERUM

Influence of serum on cultured murine tooth organ allotransplants. Riviere, G.R. 1072

SEX CHARACTERISTICS

Sexual dimorphism in the emergence of the deciduous teeth. Tanguay, R., *et al.* 65

SILANES

Influence of silane treatment and filler fraction on thermal expansion of composite resins. Söderholm, K.-J.M. 1321

SJOGREN'S SYNDROME

Microbial pathogenicity in oral soft tissue diseases. Greenspan, J.S., *et al.* 431[#]

SKULL

Relationships between masticatory muscle cross-section and skull shape. Weijs, W.A., *et al.* 1154

SPIROCHETES

Effect of splint placement on the black-pigmented *bacteroides* and spirochetes in the dental plaque of beagle dogs. Mikx, F.H.M., *et al.* 1284

STAINS AND STAINING

Effects of sequential calcium phosphate-fluoride rinses on dental plaque, staining, fluoride uptake, and caries in rats. Shern, R.J., *et al.* 1355

STAPHYLOCOCCUS

Ureolytic microflora of immature dental plaque before and after rinsing with a urea-based mineralizing solution, The. Gallagher, I.H.C., *et al.* 1037

STOMATITIS, APHTHOUS

Microbial pathogenicity in oral soft tissue diseases. Greenspan, J.S., *et al.* 431[#]

STRATIFICATION METHODS

Specific non-parametric approaches to analyzing caries clinical trials: discussion of Dr. Varma's presentation. Imrey, P.B. 788[!]
Specific non-parametric approaches to analyzing caries clinical trials. Varma, A.O. 784[!]
Stratification methods in caries clinical trials: discussion of Dr. Kingman's presentation. Smith, H., Jr. 777[!]
Stratification methods in caries clinical trials. Kingman, A. 773[!]

STREPTOCOCCUS

Automated immunofluorescent speciation of oral bacteria using flow cytometry. Barnett, J.M., *et al.* 1040
Chemical analyses of membranes isolated from *streptococcus mutans* BHT. Crowley, P.J., *et al.* 1343
Conceptual model for the co-existence of *streptococcus* spp. and *actinomyces* spp. in dental plaque, A. van der Hoeven, J.S., *et al.* 389[#]
Effects of fluoride, lithium, and strontium on intracellular polysaccharide accumulation in *s. mutans* and *a. viscosus*. Wegman, M.R., *et al.* 1126
Relatedness and classification of *streptococcus mutans* and "mutans-like" streptococci. Schleifer, K.H., *et al.* 1047
Salivary clearance of sugar and its effects on pH changes by *streptococcus mitior* in an artificial mouth. Lagerlöf, F., *et al.* 1266
Ureolytic microflora of immature dental plaque before and after rinsing with a urea-based mineralizing solution, The. Gallagher, I.H.C., *et al.* 1037

MITIS

Neuraminidase activity: a biochemical marker to distinguish *streptococcus mitis* from *streptococcus sanguis*. Murray, P.A., *et al.* 111

MUTANS

Activity of *streptococcus mutans* α-D-glucosyltransferases released under various growth conditions. Walker, G.J., *et al.* 397[#]
Adherent interactions which may affect microbial ecology in the mouth. Gibbons, R.J. 378[#]
Anti-bacterial determinants of stannous fluoride. Camosci, D.A., *et al.* 1121
Comparison of *s. mutans* prevalence in relation to caries experience in Norwegian and immigrant Vietnamese children, A. Scheie, A.A., *et al.* 1383
Effect of cheese, with and without sucrose, on dental caries and recovery of *streptococcus mutans* in rats. Rosen, S., *et al.* 894
Effects of fatty acids and their monoesters on the metabolic activity of dental plaque, The. Hayes, M.L. 2
Model for producing caries-like lesions in enamel and dentin using oral bacteria *in vitro*, A. Clarkson, B.H., *et al.* 1186
Relationship of bioenergetic processes to the pathogenic properties of oral bacteria. Marsh, P.D., *et al.* 401[#]
Screening of sugars inhibitory against sucrose-dependent synthesis and adherence of insoluble glucan and acid production by *streptococcus mutans*. Imai, S., *et al. 1293*
Selection of *streptococcus mutans* and lactobacilli in an intra-oral human caries model. Arneberg, P., *et al.* 1197
Streptococcus mutans and caries prevalence in Lisu and Karen of northern Thailand. Reichart, P., *et al.* 56
Streptococcus mutans levels and biotypes in Egyptian and Saudi Arabian students during the first months of residency in the United States. Farghaly, M.M., *et al.* 52
Virulence factors of *streptococcus mutans* and dental caries prevention. Hamada, S., *et al.* 407[#]

PNEUMONIAE

Glycoconjugate receptors involved in the adhesion of *escherichia coli* and *streptococcus pneumoniae* to epithelial cells. Svanborg-Edén, C., *et al.* 386[#]

SANGUIS

Effect of chlorhexidine-fluoride applications without and with Sr and Zn on caries, plaque, and gingiva in rats. Luoma, H., *et al.* 1193
Neuraminidase activity: a biochemical marker to distinguish *streptococcus mitis* from *streptococcus sanguis*. Murray, P.A., *et al.* 111

STRONTIUM

Effects of fluoride, lithium, and strontium on intracellular polysaccharide accumulation in *s. mutans* and *a. viscosus*. Wegman, M.R., *et al.* 1126

SUBSTANCE P

Effect of substance P on exocrine secretion by rat submandibular gland cells. Fleming, N., *et al.* 1022

SUCROSE

Effect of cheese, with and without sucrose, on dental caries and recovery of *streptococcus mutans* in rats. Rosen, S., *et al.* 894
Salivary clearance of sugar and its effects on pH changes by *streptococcus mitior* in an artificial mouth. Lagerlöf, F., *et al.* 1266
Screening of sugars inhibitory against sucrose-dependent synthesis and adherence of insoluble glucan and acid production by *streptococcus mutans*. Imai, S., *et al.* 1293

SULFHYDRYL COMPOUNDS

Effect of hydrogen sulfide and methyl mercaptan on the permeability of oral mucosa. Ng, W., *et al.* 994[?]

SWINE

Experimental osteo-fluorosis in the domestic pig: a histomorphometric study of vertebral trabecular bone. Kragstrup, J., *et al.* 885

TEMPORO MANDIBULAR JOINT

Tissue repair after condylectomy in growing *macaca fascicularis*. Bakker, V.M., *et al.* 114

TENSILE STRENGTH

SEM study of posts cemented with an unfilled resin, An. Goldman, M., *et al.* 1003

TOOTH

Comparison of the tensile bond strengths of composite resins to longitudinal and transverse sections of enamel prisms in human teeth, A. Munechika, T., *et al.* 1079
Crown area as an indicator of changing crown size in human pre-natal teeth. Prasad, N., *et al.* 1302
Cusp reinforcement by the acid-etch technique. Morin, D., *et al.* 1075
Fissure removal and needle scraping for evaluation of the bacteria in occlusal fissures of human teeth. Meiers, J.C., *et al.* 1051
Influence of serum on cultured murine tooth organ allotransplants. Riviere, G.R. 1072

TOOTH CALCIFICATION

Acceleration of remineralization *in vitro* by sodium monofluorophosphate and sodium fluoride. Mellberg, J.R., *et al.* 1130

Comparison of artificial white spots by microradiography and polarized light microscopy. Wefel, J.S., *et al.* 1271

Effect of long-term administration of fluoride on the levels of EDTA-soluble protein and γ-carboxyglutamic acid in rat incisor teeth. Smid, J.R., *et al.* 1061

Formation and remineralization of artificial white spot lesions: a constant composition approach, The. de Rooij, J.F., *et al.* 864

In vivo remineralization of human enamel and dental calculus formation. Hoyer, I., *et al.* 1136

Rat intestinal vitamin D-dependent calcium-binding protein: immunocytochemical localization in incisor ameloblasts. Taylor, A.N., *et al.* 94

Topical fluoride application and lesion progression *in vitro*. Wefel, J.S., *et al.* 1276

TOOTH, DECIDUOUS

Sexual dimorphism in the emergence of the deciduous teeth. Tanguay, R., *et al.* 65

TOOTH ERUPTION

Comparison of tooth eruption patterns between two colonies of young marmosets (*callithrix jacchus*), A. Goss, A.N. 44

TOOTH GERM

In vivo remineralization of human enamel and dental calculus formation. Hoyer, I., *et al.* 1136

Influence of serum on cultured murine tooth organ allotransplants. Riviere, G.R. 1072

TOOTHPASTE

Fluoride uptake by partially-decalcified enamel: a study of possible involvement of acid phosphate ions. Moore, A.J. 1056

TRANSPLANTATION, HOMOLOGOUS

Skin graft rejection after allogeneic tooth transplants in mice. Riviere, G.R. 41

ULTRASONICS

Model system to demonstrate the role of cavitational activity in ultrasonic scaling, A. Walmsley, A.D., *et al.* 1162

UREA

Ureolytic microflora of immature dental plaque before and after rinsing with a urea-based mineralizing solution, The. Gallagher, I.H.C., *et al.* 1037

URINARY TRACT INFECTIONS

Glycoconjugate receptors involved in the adhesion of *escherichia coli* and *streptococcus pneumoniae* to epithelial cells. Svanborg-Edén, C., *et al.* 386*

VINCRISTINE

Ultrastructural changes in the cementoblasts of rat molars after injection of vincristine. Takuma, S., *et al.* 1108

VITAMIN D

Rat intestinal vitamin D-dependent calcium-binding protein: immunocytochemical localization in incisor ameloblasts. Taylor, A.N., *et al.* 94

WORK CAPACITY EVALUATION

Dental disease and work loss. Reisine, S.T. 1158

XERORADIOGRAPHY

Comparison of xeroradiographs and film for detection of periapical lesions. White, S.C., *et al.* 910

X-RAY DIFFRACTION

cmCrystallographic structure of enamel surfaces treated with topical fluoride agents: TEM and XRD considerations. Nelson, D.G.A., *et al.* 6

Preparation of hydroxyapatite crystals and their behavior as seeds for crystal growth. Aoba, T., *et al.* 874

XYLITOL

Anti-cariogenic potential of xylitol in comparison with sodium fluoride in rat caries experiments, The. Havenaar, R. 120

ZINC

Effect of chlorhexidine-fluoride applications without and with Sr and Zn on caries, plaque, and gingiva in rats. Luoma, H., *et al.* 1193

ZINC OXIDE-EUGENOL

Analysis of the release and the diffusion through dentin of eugenol from zinc oxide-eugenol mixtures, An. Hume, W.R. 881

Effect of eugenol on respiration and division in human pulp, mouse fibroblasts, and liver cells *in vitro*. Hume, W.R. 1262

The 1984 index was presented by The Write Words, Inc., Arlington, Virginia 22206.
